Artromick Understands Mobile Computing

Artromick understands the selection of a mobile computing cart is about high-performance processing, a powerful battery system and a simple-to-use product solution. We also understand it is about product value and reliability.

That's why Artromick designed its NX10 Workstation to meet the needs of everyone involved. For nursing, the Artromick NX10 Workstation is lightweight and simple to maneuver. For IT, there is an open platform to design the computing solution that meets a full spectrum of requirements. And for administration, the Artromick NX10 Workstation offers superior value that equates into a lower long-term cost of ownership.

Lightweight. Powerful. And best of all, affordable.

The Artromick NX10 Workstation. Take a look for yourself, and you'll see that Artromick understands mobile computing.

NX10 Workstation Highlights

- A** Open platform for a host of computing options including laptop, All-In-One PC, tablet or thin-client solutions
- B** PowerWatch™ power system monitoring
- C** Ergonomic design with simple height adjustment
- D** LED battery indicator
- E** Expansive work area with integrated forward-facing handles
- F** Retractable 104-key keyboard; optional keyboard / mouse upgrades available
- G** Configurable and secure storage area
- H** Ultra-lightweight design
- I** Stable, trim-line footprint for simple maneuverability
- J** Extended power system for run times of 9+ hours

Computing Options

Artromick gives you a choice to accommodate the latest Laptop, All-in-One PC, Tablet or Thin-Client computing solutions. Powerful processing is assured to optimize the most popular software solutions from Epic, Meditech, Cerner, McKesson and many other providers.

Laptop Mounting Solutions

The NX10 WorkStation accommodates a host of laptop models from the leading healthcare IT brands including HP, Dell, Lenovo/IBM, Panasonic and Toshiba.

NX10 Workstation Features & Specifications

The Artromick NX10 Mobile Computing Workstation offers highly-advanced computing technology in a maneuverable and trim-line solution. Efficient nursing workflow is enhanced by the Artromick NX10 Workstation's small but stable footprint which allows for simple navigation to the point-of-care for bedside patient monitoring and documentation.

The robust power system with available PowerWatch™ monitoring is customized to make sure your PC solution attains the longest run-times possible...a critical requirement for healthcare mobile computing. This innovative technology is a core feature of the NX10 Workstation and part of a complete solution that gives your facility the finest next-generation mobile computing workstation available.

Features

- Flexible platform for a choice of computing options: Laptop, All-In-One PC, Tablet or Thin Client
- Easy-to-reach spiral power cord
- LED power status display
- PowerWatch™ power system monitoring
- Integrated power conditioning system
- Integrated powered USB hub
- Retractable mouse tray (right mount standard)
- 104-key keyboard on retractable tray
- LiftAssist actuation lever for height adjustment
- Flexible accessory mounting system
- Advanced casters with 2 locking, 1 standard, 1 tracking

Benefits

- 480 watt-hours of usable power for cord-free mobile computing
- Powerful battery and conditioning system
- Improved workflow and accuracy
- Safe and ergonomic design
- Advanced computing performance
- Small footprint for easy maneuverability
- Customized configuration

Power Conditioning System Specifications

Input Voltage	115 VAC (range 90–130 VAC) or 230 VAC (range 180–260)
Output Voltage:	3 channels 5–24 VDC 1 channel 5 VDC
Charger:	Multi-Stage Smart Charger
Battery Type:	12V sealed lead acid with 50 amp hours for extended run times
Short-circuit:	20 amp DC breaker
Status Indicator:	Battery status on LED display
Regulatory:	Tested to FCC Class A, Part 15

Standard Cart Specifications

Base Dimensions:	16" x 17" 40.5cm x 43cm
Work Surface Area:	15.5" x 21" 39.5cm x 53.5cm with integrated forward-facing handles
Work Surface Height:	31"–43" 79cm – 109cm
Workstation Height:	48"–60" including monitor 122cm –152.5cm
Construction:	Formed steel, aluminum, high-density polymer work surface
Finish:	Durable powder coat
Wheels:	2 locking, 1 standard, 1 tracking
